

Technical Analysis using R Development Phase

BDA400 Assignment 5

Student	Samaneh Yarmohammadi
Course	BDA400 Data Science Tools and Techniques
Assignment	Assignment 5 Technical Analysis using R Development Phase
Submission	Yarmohammadi_Samaneh_BDA400_A05

Assignment repository

<https://github.com/samyar11293/TechnicalAnalysis/tree/main/Assignment05>

The public repository folder contains the nine separate R implementation files, reproducible tests, README instructions, and the implementation report.

Required deliverables

- Nine separate base-R scripts following the required function names and parameter templates
- One implementation report explaining every indicator and how to run the code
- Reproducible verification tests and clear dependency instructions

Repository access check: open the link above in a private browser window and confirm the Assignment05 folder is visible before LMS submission.
